

SPRING SUMMER 2025

Our Heritage

ON THE JOB SINCE 1922

A century ago, we were just a small Texas company making bib overalls. Built with quality, grit, and quiet pride, every pair that came out of our shop embodied the spirit of the American worker.

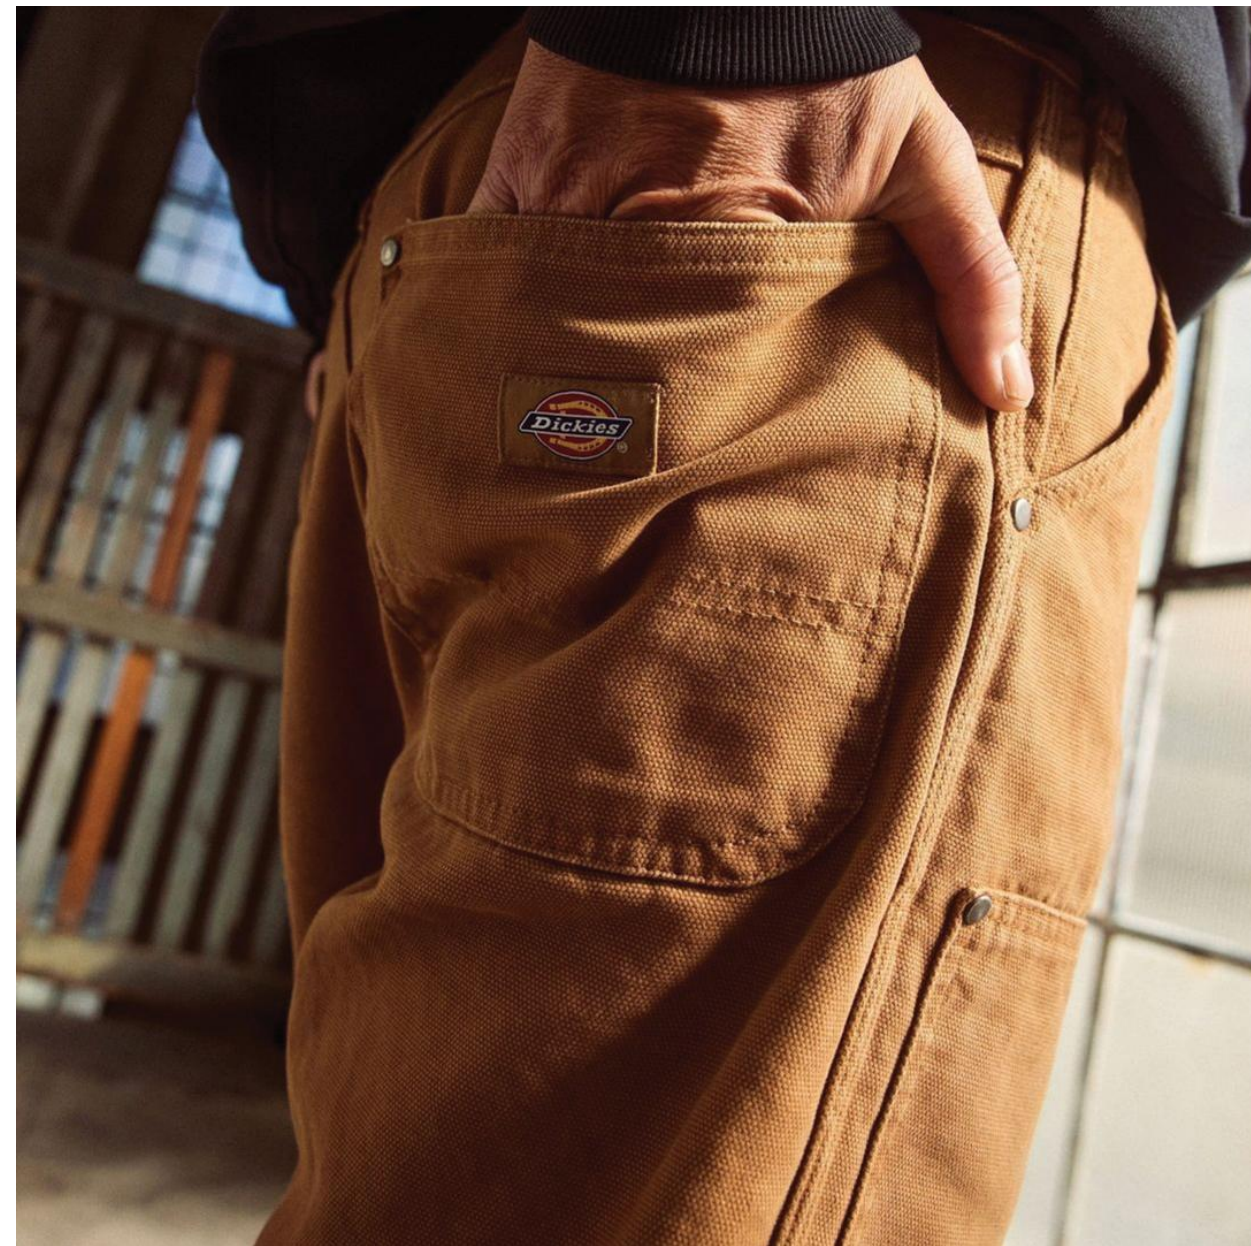

While our workwear is now available in more than 100 countries across the world, we're not all that different from when we first opened our doors. We still make bib overalls. We still embody that spirit of the American worker. The only difference is we get to do what we do for more hardworking people than ever before.

WHAT WE STAND FOR

From day one, we've been a manufacturer.

We made for the makers then
and we make for them now; creating goods
as hard-working and honest as the people
who wear them.

We make for the mechanics,
the skaters, the carpenters, and the artists.

A diverse community of makers each following
their
own path but united in their commitment to turn
ideas into reality.

We make for them
so they can make their mark.

SPRING SUMMER 2025

SPRING

Our spring collection is a versatile line packed with all new as well as updated and reinterpreted styles. The collection takes cues from vintage workshop style uniforms and signage, with all new seasonal graphic prints, oversized and relaxed cuts, garment washed denim jackets and pants, heritage inspired embroidery, as well as jacquard Icons. Hickory stripe is also applied across various men's and women's pieces, creating new yet classically inspired workwear pieces. We've made use of a range of multi-functional painter and carpenter styles, and many of our trans-seasonal styles have been updated with new materials, constructions and washes. Bold vintage inspired graphics, illustrations and logos feature across T-shirts, hoods and sweaters, and highlights include Service Painter Jacket, women's Service Carpenter Pant and Lewistown FZ Cardigan. A fresh collection of service inspired styles and prints, with all of the functionality and fabrication synonymous with Dickies.
